Hi Everyone: we are scanning with no problem and do not have to fill out anything but the first entry. It manually prefills after that, and we just scan and it tells us that the ballot was issued successfully. If we accidentally scanned it twice it tells us it has already been issued. For those having problem are you sure your on the correct screen. On the left choose SCAN **ISSUE** ABSENTEE BALLOT and not scan return absentee ballot. Hope this is helpful.
