FOR IMMEDIATE RELEASE
6PM November 13, 2022

GASOLINE TANKER ROLLOVER AND PRODUCT RELEASE UPDATE

An informational town meeting is scheduled for Tuesday evening at 7 p.m. at the Hall of Flags at Botelle School. We have developed an online form for residents to fill out beforehand with any questions or comments you may have. This will allow the meeting to be as efficient as possible and allow officials to gather the proper information beforehand for you. Of course, you will be allowed to ask questions in person at the meeting as well.

Click the link to access the online form. You do not need to sign in with Google or provide any personal information to fill out the form. Submissions will be confidential if you decide not to include your name.

If any residents would rather skip the online form, you can contact the Selectmen's Office with your question(s).

On-site activity has slowed on Sunday with crews monitoring the collection pads and booms intermittently. All local and state roads continue to be open and accessible. We do not expect any disruptions to the high school or elementary school bus routes for Monday. Children will be picked up and dropped off at their normal locations.

Clean up and monitoring staff will be on site this coming week to continue with the progress they've achieved in a short amount of

time. However, only a small amount of the 8200 gallons of gasoline has been recovered which means much more needs to be done. Some details as to what that means will be shared on Tuesday but we can expect the recovery to continue for several more weeks, perhaps longer.

If Norfolk residents have any questions or concerns regarding any aspect of the cleanup operations, they are urged to call the Selectmen's Office at 860.542.5829.
